

Inaugural C.N. Yang Colloquium

Written by Administrator

Tuesday, 30 August 2022 13:35

Partnering with the Department of Physics and Astronomy and the Simons Center for Geometry and Physics, the C.N. Yang Institute for Theoretical Physics is co-sponsoring the first C.N. Yang Colloquium. The Yang Colloquium series is envisioned as an annual event, bringing distinguished speakers to the physics community at Stony Brook. The colloquium, [Probing the Universe with Gravitational Waves](#)

, will be presented by Nobel Prizewinner Barry Barish at the Simons Center auditorium at 4:30pm September 6, 2022. It will be livestreamed here:
